

Pupil Voice

Here is a selection of quotes from the children of Thorndown talking about Geography:

"Geography is how we look at the world, the planet."

"I like learning about the Earth and spending time to study about it."

"I like learning about new places in the world and the climate. It's good to have studied a place and then you get to visit it."

"I like the lessons - we get to recap our previous learning, seeing what has 'stuck' in our brains."

"I like Geography and look forward to the lessons."
